

How to know if your teacher Sent Something Back to you.

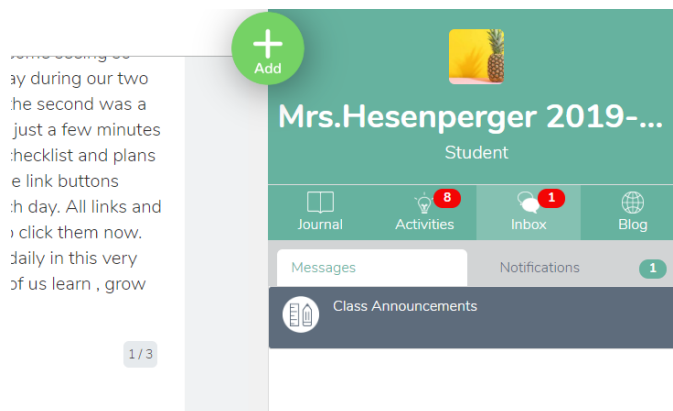

First, sign into SeeSaw like usual and click your name.

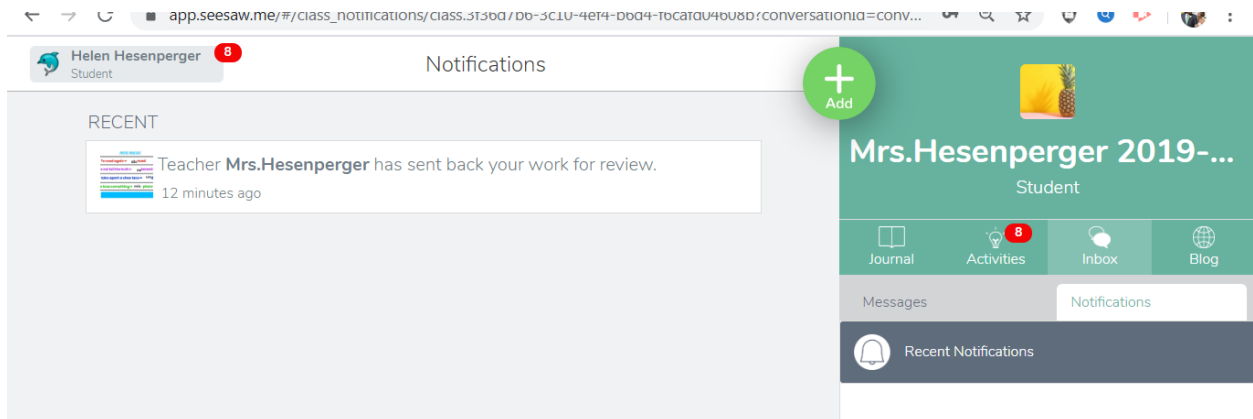

Second, notice how there is a red oval with the number 1 above the word "Inbox". This means you have a message. Click on Inbox.

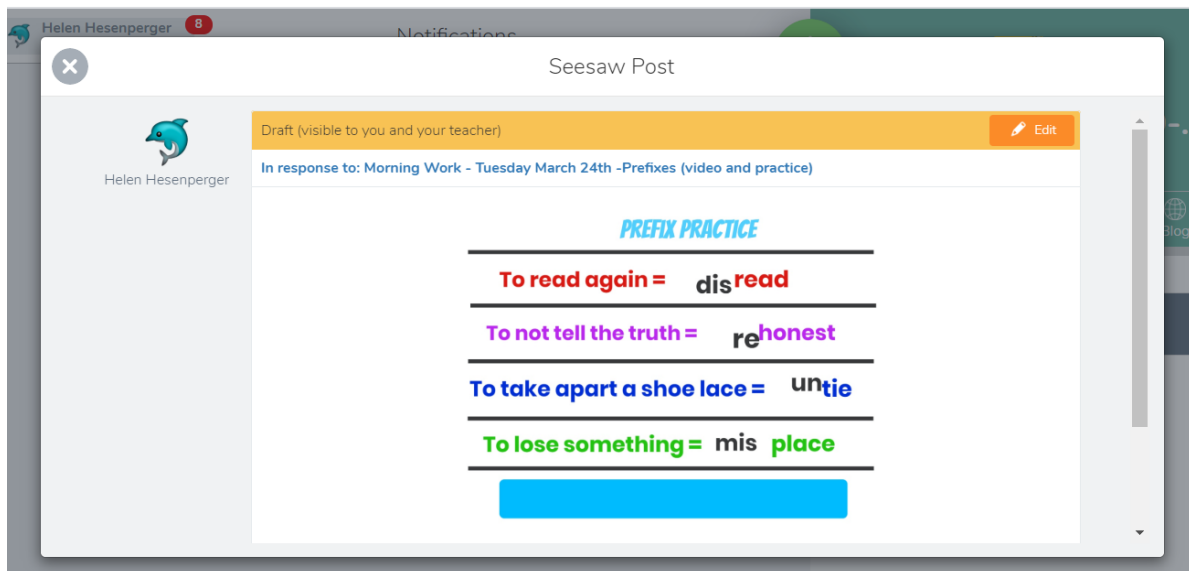

Third, your screen will look like this. You will see the number 1 is on the "Notification" not messages. So, you should click on "Notification".

Fourth, you will see your notification list on the big screen as you see here. It tells you what the problem is. It says the problem this time is “Teacher Mrs.Hesenperger has sent back your work for review”.

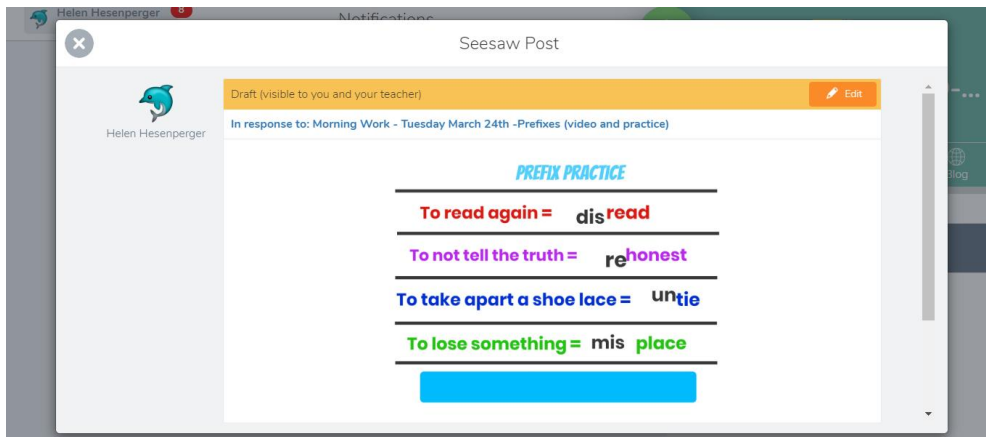

Fifth, click on the image of your work to look at what the problem is. A big popup will appear with your work and the orange bar that says “Draft (Visible to you and your teacher)” with a darker orange “Edit” button on the opposite end.

Now scroll down to the bottom of your activity (in that same pop up) to read your teachers comment about the problem with your work. As you see here the teacher’s comment was “Please look at your red and purple words.”

Since you read what needs to be fixed now you can edit your work! Scroll back up and find that dark orange “Edit” button.

Once you click the button it will load up your assignment so you can start to fix it. Once you fix the problem you will click the green checkmark as you normally would and it will be sent back to your teacher.
